● TeamLead SRE / DevOps Engineer

10+ years in prod

Team Lead

On-call 24/7

Relocation ready

ABOUT

TeamLead SRE with a hands-on engineering background

10+ years of experience operating, designing, and evolving high-load, fault-tolerant IT systems. I specialize in building production infrastructure, implementing SRE practices (SLI/SLO/SLA), reducing operational risk, and improving service reliability. I lead DevOps/SRE and system administration teams across the public sector, fintech, and EdTech in Kyrgyzstan and Uzbekistan. Open to relocation and business trips.

STACK

Skills & technologies

SRE / DevOps

SLI/SLO/SLA · Incident & Problem Mgmt · RCA · MTTR · On-call

Administration

Linux & Unix · Windows Server · Systems engineering · IT & data center architecture

Containerization

Docker · Docker Swarm · Kubernetes

Virtualization

VMware · Proxmox · KVM · Hyper-V

Monitoring

Prometheus · Alertmanager · Grafana · Zabbix

DBs & queues

PostgreSQL · Patroni · Kafka · message brokers · cache systems

CI/CD & automation

Git · GitLab CI/CD · Jenkins · Ansible · Bash

Network & security

Data networks · InfoSec · Suricata · IDS/IPS · PCI DSS

Fault tolerance

High-load systems · HA/DR

CAREER

Work experience

● August 2026 – Present

DevOps / SRE Engineer

rx2go.ai

Operating and improving the reliability of production infrastructure, evolving DevOps/SRE practices.

● March 2024 – July 2026

TeamLead SRE

Kundalik LLC (emaktab.uz)

Led the SRE/DevOps team for a high-load, federal-scale education platform: SLI/SLO/SLA, incident & problem management, RCA, MTTR reduction, monitoring (Prometheus/Alertmanager/Grafana/Zabbix), Docker infrastructure, PostgreSQL clusters, CI/CD (GitLab, Ansible), engineer mentoring, 24/7 on-call.

● July 2021 – February 2024

Head of Systems & Network Administration

Salyk Service State Institution, State Tax Service, Ministry of Finance of the Kyrgyz Republic

Led the systems administration department, introduced DevOps processes org-wide, operated Apache Kafka, monitoring (Zabbix/Prometheus/Grafana), designed data center infrastructure, managed vendor relationships.

September 2020 – April 2021

DevOps Engineer

Namba Soft LLC

Launched the NambaOne payment system: Proxmox cluster, Docker Swarm/K8s, PostgreSQL Patroni cluster, Suricata IDS/IPS, disaster-recovery data center. Successfully passed PCI DSS certification.

September 2018 – August 2020

Senior System Administrator

IT Service State Institution, State Tax Service of the Kyrgyz Republic

Deployed storage systems, SAN switches, and servers; rolled out SSO, Mail, Jira, Wiki, Jenkins, Docker; automated processes; designed fault-tolerant information systems.

May 2018 – September 2018

Senior System Administrator

TSEV State Enterprise, State Committee for IT and Communications of the Kyrgyz Republic

"Tunduk" interagency e-government network: security servers, Bind/iRedmail/Zabbix/x-Road, consulting for government agencies, technical documentation.

October 2017 – April 2018

Senior System Administrator

IT Service State Institution, State Tax Service of the Kyrgyz Republic

Equipment deployment, service rollout, task automation, hardware architecture design for a high-load information system.

Aug 2014 – Feb 2016, Oct 2016 – Sep 2017

Technical Consultant

Private practice (CBI.KG and others)

E-justice system for the Kyrgyz Republic, state-scale information system design, meetings with international donors (IDLO, GIZ), IT consulting and outsourcing.

January 2014 – July 2014

IT Specialist / Engineer

AiTiEI LLC

Squid/Bind/OpenVPN/CommuniGate/Apache-Nginx; virtualization on VMware/Proxmox (ESX, KVM, QEMU, XenServer, Hyper-V); cloud solutions on OpenStack and vCloud.

June 2011 – January 2014

Senior IT Specialist

Mol Bulak Finance Holding

Proxmox/KVM/QEMU, remote support for 120 regional offices, local networks and video surveillance, managed a junior tech team (7 people).

March 2010 – April 2011

Chief Engineer

Inter Alliance LLC

Asterisk IP telephony, AD, ISA Server; video conferencing and surveillance systems; GPS fleet tracking; managed junior engineers.
